## WORK EXPERIENCE

---

### Deutsche Bahn Zeitarbeit GmbH

Frankfurt/Berlin, Germany

Informatiker Architect

Oct 2022 – Present

- Engineered core features for 5+ microservices and web applications to deliver over 100 new user stories and improve application functionality for 500+ internal users & 2000+ external users.
- Architected and implemented a robust CI/CD pipeline in GitLab using DB Pipeship, reducing deployment time by 60% and automating 90% of build, test, and deployment processes.
- Enhanced system performance by optimizing code and resolving complex bugs across multiple AWS – (ECS,EKS,EC2,S3,Lambda etc..) based microservices and also web applications.
- Streamlined DevOps best practices by managing containerized applications on Kubernetes (OpenShift), automating deployment, and providing production support to ensure high availability.
- Improved development workflows by automating dependency management and proactively monitoring performance, which enhanced code security and expedited issue detection.

### Carl Zeiss Automated Inspection GmbH

Neuenstein, Germany

Software Developer

Nov 2017 – Sep 2022

- Engineered and maintained a full-stack software suite including visualization, measurement, and configuration applications using C#, .NET, and SQL Server.
- Architected and implemented a RESTful Data Transfer Service to enable efficient image transfer, that reduced image transfer time by 50% and improved system efficiency.
- Contributed to architectural decisions on technology stack and service design, ensuring a scalable and maintainable system while working within a Kanban framework.

### BMW AG

Dingolfing, Germany

Software Developer Intern

Nov 2016 – Apr 2017

- Engineered and implemented a robust License Manager Tool, reducing manual license management time by 80% and providing secure, centralized access control for a team of 50+ developers.
- Developed and enhanced core functionalities for an in-house Information Capturing application.

### Mindtree Ltd.

Bangalore, India

Senior Software Engineer

Jul 2011 – Sep 2014

- Contributed as a full-stack developer, developing core functionalities for the Business, UI, and Database layers using a technology stack that included ASP.NET, MVC, and Entity Framework.
- Optimized application performance by refactoring database scripts and queries, leading to a estimated 40% reduction in query execution time and accelerating front-end loading speed.

## EDUCATION

---

### Technische Universität Chemnitz

Chemnitz, Germany

Master of Science (Major: Embedded Systems)

Graduation Date: Apr 2018

### SDM College of Engineering and Technology

Dharwad, India

Bachelor of Engineering in Electronics and Communication

Graduation Date: Jun 2011

## SKILLS

---

**Languages:** C, C++, C#.

**Frameworks/Libraries:** .NET, .NETCore, XUnit, Refit, Flurl, Polly, JWT, WebAPI.

**Cloud&DevOps:** AWS, Azure, Docker, Kubernetes, Kafka, GitLab CI/CD, Grafana(Loki,Prometheus), Git.

**Databases:** MSSQL, PostgreSQL, Oracle, Redis(NoSQL).
